

Intelligent Network Vulnerability Scanner Report

Target: 192.168.1.19
Scan Date: 2026-05-06 01:25:12

Open Ports & Services

Port	Service	Version
------	---------	---------

Detected Vulnerabilities

Port	CVE	CVSS	Severity
------	-----	------	----------

Visual Analysis

Mitigation Suggestions

Final Risk Summary

This assessment identifies open ports, vulnerable services, and associated CVEs with CVSS-based prioritization. Immediate attention is recommended for HIGH and CRITICAL vulnerabilities.
